Thanks Peter, I appreciate that you have other demands on your time. I am concerned about time - Steve is saying that he may leave Maralinga at the end of 2003. **Redacted pursuant to s. 47F**. So in the next few months, before the weather gets hot, we want to do the physical work of the Kuli signs, and also, Steve will be occupied for some of that time supporting the ARPANSA monitoring.

Thus, the sooner you can discuss with Jill and Andrew and get back to us, the better for us.

You will be welcome at Maralinga with Des

regards

DJ

David,

Thanks for the reminder.  
You are correct. In fact, AC and I decided that we had several things to discuss with Jill and we planned to talk with her together.

We have yet to make a date, but you have revived the dormant plan. Unfortunately, it won't work in conjunction with the Oak Valley trip.

By the way, I will probably come with Des to Maralinga on that trip, but details are still not finalised.

I offer my apologies for slow progress. Amongst other things, I have been Acting Head of Department for 3 months as well as my usual load and the cracks are beginning to open up (I'm having nightmares about being swallowed by one of them.).

Regards, Peter

Peter

You will recall that at the 24 June teleconference you indicated that you would liaise with the Jill F of the SA EPA and discuss the DEST proposed Kuli work and advise DEST of the MT preferences for sign positions, size and text.

Are you yet able to advise DEST of when MT will have answers on those issues?

regards

DJ
