

2009 GRADUATE DEVELOPMENT PROGRAM PROFILES

Name: Dianne McGrath

Job Title: Policy Officer

University: Flinders University (post grad)

UTS (post grad), Deakin (under grad)

Qualification: B. Ed (sec), Grad Dip
(marketing), Grad Dip (Environmental
Management)

Why did you choose RET?

I am interested in the future of energy in Australia, as energy underpins all opportunity. RET is the Department that is in a position to not only shape the future of energy, but also to engage with industry, other levels of government and the general public to assist in helping others shape their own future.

How did you benefit from the Graduate Development Program?

The Graduate Development Program was a great opportunity to transition into the public sector. My previous experience had been in the private sector for many years, and I found this very beneficial.

Most memorable moment in the Graduate Development Program?

I think it has been the friendships that I have made.

What would you tell others considering the Graduate Development Program?

Engage with your fellow graduates; take every opportunity to engage in any extra learning opportunities; ask questions; make the most of the learning opportunities.
