Public Forum – Smart Meters: Review of Customer Protection and Safety

In December 2007, the Ministerial Council on Energy (MCE) committed to work with stakeholders and appropriate jurisdictional authorities to review consumer protection and safety arrangements associated with the proposed roll-out of smart meters and ensure they remain appropriate for each jurisdiction.

On 19 August 2009 MCE's Standing Committee of Officials (SCO) released the first draft policy paper of this review for consultation – announced in MCE Bulletin 162.

SCO invites stakeholders to attend a public forum on Tuesday 15 September to discuss and provide feedback on the draft policy paper. An agenda will be circulated to registered participants.

The policy considerations in the draft policy paper are not settled by SCO and feedback from this public forum and subsequent written submissions will assist in guiding final policy positions.
