Energy Market Reform Bulletin No. 95

SCO Response to Submissions on the Draft of the National Electricity Rules

This Bulletin announces the release of the response (on a no prejudice basis) of the Standing Committee of Officials of the Ministerial Council on Energy to submissions to the:

- Exposure draft of the National Electricity Rules;
- Recommendations of NERA Economic Consulting's Review titled *Distribution Rules Review – Network Incentives for Demand Side Response and Distributed Generation*; and
- NSW/ACT transitional arrangements for the electricity distribution regulatory resets.

These documents were the subject of [Bulletin No. 84](#), released on 13 April 2007.

[SCO's response](#) is set out in three tables that respond to issues raised in stakeholder submissions.

The response follows on from the SCO response on the National Electricity Law Amendments, which was released with [Bulletin No. 85](#) of 13 April 2007.

SCO thanks stakeholders for their submissions on the electricity rules and looks forward to further engagement with stakeholders.
