To The Manager

## **Re: National Electricity Rules (NERs)**

Further to REGA's submission on the proposed National Electricity Law (NEL) dated 24 December 2004, REGA re-emphasises its concerns about the interaction of the proposed NEL with the proposed new NERs.

While the conversion of the National Electricity Code (NEC) to NERs is not in itself of concern, its interaction with the proposed NEL and the application of the proposed new single objective is the cause of great concern to REGA's members. These issues have been covered in both our written submission and in the verbal submission made by Mr Dave Holland and Mr Rob Jackson on January 7 in Melbourne.

Yours sincerely

signed

Susan Jeanes
